

Bradly J. Lincoln, PE

Education

2001 Arizona State University Phoenix, AZ
B.S., Civil Engineering

2007 Seattle University Seattle, WA
Masters in Business Administration

Continuing Education Courses

- Synchro and SimTraffic Training

Registration

Professional Engineer, Civil
State of Washington

Experience Highlights

Prior to joining Gibson Traffic Consultants (GTC), Mr. Lincoln worked in Phoenix, Arizona for DMJM + HARRIS. Tasks included preparing reports evaluating impacts of residential and commercial developments on surrounding intersections, analysis of freeway diamond interchanges, speed studies and segments and design of uphill passing lanes. Recent experiences with GTC include:

- Project Management for various traffic impact studies. Completion of numerous transportation element sections for substantial SEPA and EIS reports. Conducted numerous safety studies for commercial and residential developments. Coordinated and completed origin-destination surveys, trip generation/assignment analysis, parking utilization studies, traffic counts, accident data analyses, level-of-service calculations, sight distance evaluations and signal and channelization warrant assessments.

Skills

Proficient with IBM personal computers as well as experienced in main frame computer operations. Regular user of spreadsheet and word processing packages such as Excel and Word. Experienced in traffic analysis packages such as Synchro and HCS. Possess excellent communications skills with the ability to listen to the needs of the clients and a "common sense" approach to solutions.
